DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, drawn to a process of making a cut resistant yarn, classified in class 57, subclass 289.
 - II. Claim 4, drawn to a process of making a glove, classified in class 28, subclass 169.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are a process of making a yarn, and a process of making a glove, wherein the yarn of the glove making process is different from that of the yarn of the yarn making process; specifically the yarn of the yarn making process must be formed having a random entangled loop structure. As such, the glove making process does not require the yarn of Group I. Examiner notes that even if the glove making process utilized the identical yarn produced in Group I, it would still remain restricted since yarns can be produced by any myriad of processes, and claim 4 does not specifically recite the method in which the yarn utilized was produced.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. John E. Griffiths on 05 April 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shaun R Hurley whose telephone number is (703) 605-1236. The examiner can normally be reached on Mon - Fri, 6:30am - 3:00pm, off every other Friday.
